

Strenuous efforts are being made in the Nakfa sub zone to enhance agricultural production, the administrator of the sub zone, Mr. Mohammed Saleh Jabera stated.

Nakfa, 17 May 2010: Strenuous efforts are being made in the Nakfa sub zone to enhance agricultural production, the administrator of the sub zone, Mr. Mohammed Saleh Jabera stated.

Indicating that traditional methods of farming had previously limited farmers' productivity, Mr. Mohammed said that modern farming techniques have been introduced so as to boost production and improve the people's living standards. Accordingly over 2,000 hectares of land has been cultivated using tractors.

Mr. Mohammed went on to add that in addition to the technical support they are being provided, the awareness of the farmers is gradually increasing.
