

As announced through local media guidelines, an Eritrean national resident in Norway who flew to Asmara last Saturday, March 21st, was confirmed positive for COVID-19. The patient is receiving all necessary treatment while passengers who travelled on the same Airline were subsequently quarantined.

As announced through local media guidelines, an Eritrean national resident in Norway who flew to Asmara last Saturday, March 21st, was confirmed positive for COVID-19. The patient is receiving all necessary treatment while passengers who travelled on the same Airline were subsequently quarantined.

The Ministry of Health urges, again, all citizens and foreigners residing in the country to take utmost precautionary measures to prevent the spread of the pandemic and to strictly implement Government guidelines for the safety of their own lives and the country.

In this spirit, the MoH issues the following additional guidelines:

1. Every person should avoid non-essential movement within the city or village of residence as well as travel to other places inside the country. Every person should likewise avoid travel by bus, mini-bus and taxis unless in emergencies.
2. All public gatherings, sport and cultural events that assemble a crowd of more than 10 people are prohibited. Cinemas and night-clubs will remain closed until further notice. Social distancing must be heeded to in other commercial units and centers.
3. Aggregation of more than 10 people at social events (funerals, weddings, mourning, baptism and other gatherings) is banned.
4. Every citizen must observe, and same instruction is being given by religious leaders to the faithful, prayers and associated religious sermons in their homes.
5. All Eritrean nationals living abroad are urged to take all necessary precautionary measures for their own safety, the safety of their families as well as the Eritrean communities. They should also refrain from travelling to Eritrea.

6. Stringent legal measures will be taken on all individuals and commercial enterprises that engage in hoarding and speculative price hikes by misconstruing the precautionary measures that are being taken to safeguard the safety of the Eritrean people and the country.

7. The Ministry of Health will continue to monitor developments regarding COVID-19 and issue additional information and guidelines as necessary.
